1 Setting up your camera

Attaching the strap

Loading the battery

For battery types, see page 58. To extend battery life, see page 61.
Setting up your camera

Turning on the camera

Setting the language, date/time

1. \( \uparrow \downarrow \) to change.
2. \( \leftarrow \rightarrow \) for previous/next field.
3. OK to accept.
Setting up your camera

Setting the language, date/time at other times

1. Press Menu.
2. To highlight Setup Menu, then press OK.
3. To highlight Language or Date/Time, then press OK.

Storing pictures on an SD or MMC card

Your camera has 32 MB of internal memory. You can purchase an SD or MMC card to conveniently store more pictures and videos.

NOTE: When using the card for the first time, format the card in this camera before taking pictures (see page 39).

We recommend Kodak SD or MMC cards.

CAUTION:
A card can only be inserted one way; forcing it may cause damage. Inserting or removing a card when the Ready light is blinking may damage the pictures, the card, or the camera.

See page 59 for storage capacities. Purchase SD or MMC cards at a dealer of Kodak products or at www.kodak.com/go/c653accessories or www.kodak.com/go/c623accessories.

<td>Capturing the deep hues seen at sunset.</td>
</tr>
</tbody>
</table>
Taking a picture

Using the framing marks to take pictures

Framing marks indicate the camera focus area. The camera attempts to focus on foreground subjects, even if the subjects are not centered in the scene.

1. Press the Shutter button halfway.  
   *When the framing marks turn green, focus is accomplished.*

2. If the camera is not focusing on the desired subject (or if the framing marks disappear), release the Shutter button and recompose the scene.

3. Press the Shutter button completely down to take the picture.

**NOTE:** Framing marks do not appear in Landscape, Night Landscape, Fireworks, or Video mode. When you use Focus Zone and set Center Zone, the framing marks are fixed at Center Wide.
Taking pictures/videos

Taking a video

1. Press the Shutter button completely down and release.
2. To stop recording, press and release the Shutter button again.

Reviewing the picture/video just taken

After you take a picture or video, the LCD displays a quickview for approximately 10 seconds. If you press no buttons, the picture or video is saved.

To review pictures/videos anytime, see page 17.
Understanding blur warning icons

A picture blur warning icon is displayed during quickview and review.

**Green**—Picture is sharp enough for an acceptable 4 x 6-inch (10 x 15 cm) print.

**Yellow**—Picture may be sharp enough for an acceptable 4 x 6-inch (10 x 15 cm) print or sharpness is not determined.

**Red**—Picture is not sharp enough for an acceptable 4 x 6-inch (10 x 15 cm) print.

**White**—Printability is still being determined.
Taking pictures/videos

Using optical zoom

Use optical zoom to get up to 3X closer to your subject. Optical zoom is effective when the lens is no closer than 24 in. (60 cm) to the subject or 5.1 in. (12.9 cm) in Close-up mode. You can change optical zoom before (but not during) video recording.

1. Use the viewfinder or LCD to frame your subject.
2. Press Telephoto (T) to zoom in. Press Wide Angle (W) to zoom out.
   The zoom indicator shows zoom status. When you are video recording, only the digital zoom range appears.
3. Take the picture or video.

NOTE: In Video mode, the zoom indicator changes and only the digital zoom range appears.

Using the digital zoom

Use digital zoom in any Still mode or during video recording to get up to 5X magnification beyond optical zoom.

1. Press Telephoto (T) to the maximum optical zoom limit. Release the button, then press it again.
2. Take the picture.

NOTE: You may notice decreased image quality when using digital zoom. The slider on the zoom indicator turns red when the picture quality reaches the limit for an acceptable 4 x 6-in. (10 x 15 cm) print.
Using the flash

Use the flash when you take pictures at night, indoors, or outdoors in heavy shadows.

Press the button repeatedly to scroll through flash modes (see Flash modes below).

The current flash mode appears in the LCD screen.

Flash-to-subject distance

<table>
<thead>
<tr>
<th>Zoom position</th>
<th>Flash distance</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wide angle</td>
<td>2–11.5 ft (0.6–3.5 m) @ ISO 200</td>
</tr>
<tr>
<td>Telephoto</td>
<td>2–6.6 ft (0.6–2.0 m) @ ISO 200</td>
</tr>
</tbody>
</table>

Flash modes

<table>
<thead>
<tr>
<th>Flash fires</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Auto Flash</strong></td>
</tr>
<tr>
<td>When the lighting conditions require it.</td>
</tr>
<tr>
<td><strong>Fill</strong></td>
</tr>
<tr>
<td>Every time you take a picture, regardless of the lighting conditions. Use when the subject is in shadow or is “backlit” (when the light is behind the subject). In low light, hold the camera steady or use a tripod.</td>
</tr>
<tr>
<td><strong>Red-eye</strong></td>
</tr>
<tr>
<td>If Red-eye Pre-flash is turned off:</td>
</tr>
<tr>
<td>▪ The flash fires twice (to evaluate lighting conditions; and then again when the picture is taken).</td>
</tr>
<tr>
<td>▪ The camera then automatically corrects red-eye in the picture.</td>
</tr>
<tr>
<td>If Red-eye Pre-flash is turned on:</td>
</tr>
<tr>
<td>▪ The flash fires multiple times (for focusing in low-light conditions; for the eyes to become accustomed to the flash; and when the picture is taken).</td>
</tr>
<tr>
<td>To turn the Red-eye Pre-flash feature on/off, see page 37.</td>
</tr>
<tr>
<td><strong>Off</strong></td>
</tr>
<tr>
<td>Never.</td>
</tr>
</tbody>
</table>

www.kodak.com/go/support
Taking pictures/videos

Using the self-timer

Use the self-timer when you want to be included in a picture, or to ensure a steady Shutter button press.

1. Place camera on a tripod or flat surface.
2. In most Still modes, press the Self-Timer/Burst button.
   • Once for a 10-second delay (so you have time to get into the scene)
   • Again for a 2-second delay (for a steady, auto-shutter release on a tripod)
   • Again for 2-shot (one picture taken after 10 seconds and another picture taken 8 seconds later)
3. Compose the scene.
4. Press the Shutter button halfway, then completely down.

To cancel the Self-timer before the picture is taken, press the Self-timer/Burst button or press the Shutter button completely down.

Use the same procedure to use the self-timer in Video mode, but:

- Turn the Mode dial to Video.
- Press the Shutter button completely down.

NOTE: The video stops when no storage space remains. Only the 2- and 10-second options are available in video mode.
Taking pictures/videos

Using burst

1. In most Still modes, press the Self-timer/Burst button.
   NOTE: Burst is unavailable in Anti-Blur, Hi-ISO, and Panorama modes.

2. Press the Shutter button halfway to focus and set exposure.

3. Press the Shutter button completely down and hold it to take pictures.
   The camera stops taking pictures when you release the Shutter button, when the pictures are taken, or when there is no more storage space.
   NOTE: During quickview, you can delete all pictures in the burst series. To delete selectively, do so in Review (see page 11).

Using the framing grid to compose a picture

The framing grid divides the LCD into thirds—vertically and horizontally. This is helpful if, for example, you want to balance a picture between water, earth, and sky.

To turn on the framing grid in Capture mode, press the LCD/Info button until the grid appears.

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
<th>Purpose</th>
</tr>
</thead>
<tbody>
<tr>
<td>Burst</td>
<td>Camera takes up to 3 pictures while the Shutter button is pressed.</td>
<td>Capture an expected event. Example: A person swinging a golf club.</td>
</tr>
<tr>
<td></td>
<td>All the pictures are saved.</td>
<td></td>
</tr>
</tbody>
</table>
Taking pictures/videos

Using exposure compensation to adjust picture brightness

In Auto, Landscape, Close-up, or Panorama mode, you can adjust exposure compensation before you take a picture to make your pictures darker or lighter. Only the first image in Panorama mode is adjusted.

1 Press to decrease exposure compensation.
2 Press to increase exposure compensation.

An exposure compensation level between -2.0 and +2.0 is shown on the LCD as the LCD image gets darker or lighter.

3 Take the picture when you are satisfied with the exposure compensation level.

Using camera Help

Use the camera Help screen to better understand menu options when the User’s Guide is not readily available, and you need to obtain information quickly. The Help screen operates when you are in the main menu or in most submenu selections.

Press repeatedly to obtain screen Help.
Taking panoramic pictures

Use panorama to "stitch" up to 3 pictures into a panoramic scene.

NOTE: For best results, use a tripod. Individual pictures are saved only when panorama capture is cancelled before stitching occurs. (Picture size is set to 3.1 MP for each picture. Exposure and white balance are set with the first picture. The flash is set to Off.)

1. Turn the Mode dial to SCN.

2. Press \( \downarrow \uparrow \) on the 4-way button to highlight Panorama Left-Right or Panorama Right-Left (depending on the direction you want to pan), then press the OK button.

3. Take the first picture.

   After a quickview, the LCD displays the liveview and an "overlay" from the first picture.

4. Compose the second picture. Make the overlay from the first picture cover the same portion in the new picture. (You may press the Delete button to delete each panorama picture you took.)

5. If you are taking only 2 pictures, press the OK button to stitch them together. After you take 3 pictures, the pictures are automatically stitched together.

NOTE: For printing options, visit the Kodak EasyShare Gallery at www.kodakgallery.com.
Taking pictures/videos

Understanding the picture-taking icons

In capture mode—no buttons pressed

In capture mode—shutter pressed halfway
3 Working with pictures/videos

Reviewing pictures/videos

Press the Review button to view and work with your pictures/videos. Press Review again to exit.

1. Press the Review button.
2. Press ←/→ to view previous/next picture/video.

To save battery power, use an optional Kodak EasyShare dock or Kodak 3-volt AC adapter. (See www.kodak.com/go/c653accessories or www.kodak.com/go/c623accessories.

NOTE: Pictures taken at the 5.4 MP (3:2) picture size setting are displayed at a 3:2 aspect ratio with a black bar at the top and bottom of the screen. A video’s duration is displayed at the top of the LCD.

Magnifying pictures

1. Press the Review button.
2. Press W/T to magnify 2X–8X.
3. Press ↑/↓ ←/→ to view other parts of the picture.
4. Press the OK button to return to 1X.

NOTE: If you press ↓ while at 1X, the view changes from single-picture to multi-up thumbnails. (See page 18.)
Working with pictures/videos

Playing a video

1 Press the Review button.
2 Press \( \text{Previous} / \text{Next} \) to locate previous/next video.
3 Press OK to play or pause a video.
4 Press \( \Delta / \nabla \) to adjust the audio volume.
5 Press \( \rightarrow \) during playback to play at 2X speed; press again for 4X.
6 Press \( \leftarrow \) to reverse at 2X speed; press again for 4X.

Viewing thumbnails (multi-up)

1 Press the Review button.
2 Press \( \downarrow \) to change from single-picture view to multi-up thumbnails.
3 Press OK to return to single-picture view.

Viewing picture/video information

1 Press the Review button.
2 Repeatedly press the LCD/Info \( \text{Info} \) button to turn on/off status icons and picture/video info.
Working with pictures/videos

Deleting pictures/videos

1. Press the Review button.
2. Press ←/→ for previous/next picture/video.
3. Press the Delete button.
4. Follow the screen prompts.

NOTE: After you delete a picture/video, the next picture/video (overlaid with the Delete menu with the Undo Delete option) appears. If there are no more pictures/videos, the Delete menu on a blank screen appears. See Using the undo delete feature for more information.

Using the undo delete feature

If you accidentally delete a picture or video, use Undo Delete to retrieve it. This feature is available only immediately after you delete a picture/video in Review mode and the Undo Delete option appears.

1. Press ↑/↓ to highlight Undo Delete.
2. Press OK.

The deleted picture/video (overlaid with the Delete menu) appears.

3. Select Exit to exit the Delete menu.
Protecting pictures/videos from deletion

1 Press the Review button.
2 Press ←/→ for previous/next picture/video.
3 Press the Menu button.
4 Press ▲/▼ to highlight Protect, then press OK.

The picture/video is protected and cannot be deleted. The Protect icon  appears with the protected picture/video.

To remove protection, repeat steps 1-4.

The Protect icon  is removed from the picture/video.

Press the Menu button to exit the menu.

CAUTION:
Formatting internal memory or an SD or MMC card deletes all (including protected) pictures/videos. (Formatting internal memory also deletes email addresses, album names, and favorites. To restore them, see EasyShare software Help.)
Cropping pictures

You can crop a picture so that only the desired portion of the picture remains.

1. Press the Review button, then ➡️⬅️ to find a picture.
2. Press the Menu button, choose Crop, then press the OK button.
3. Press Telephoto (T) to zoom in, or ➡️⬅️ ▲▼ to move the crop box. Press OK.
4. Follow the screen prompts.
   - The picture is cropped. The original is saved. (Cropped pictures cannot be cropped again.)
   - Press the Menu button to exit the menu.

Using Kodak Perfect Touch technology

Kodak Perfect Touch technology helps ensure better, brighter pictures.

1. Press the Review button, then ➡️⬅️ for previous/next picture.
2. Press the Menu button, choose Perfect Touch tech. ☀️, then press the OK button.
   - The enhancement is previewed in a split screen. Press ➡️⬅️ to view other parts of the picture.
3. Press OK. Follow the screen prompts to replace the original picture or to save the enhanced picture as a new one.

NOTE: You cannot enhance previously enhanced or panorama pictures, or videos.

■ Press the Menu button to exit the menu.
Working with pictures/videos

Editing videos

Making a picture from a video

You can choose a single frame from a video, then make a picture suitable for printing.

1. Press the Review button, then \(</>\) to find a video.
2. Press the Menu button, choose Make Picture, then press the OK button.
3. Press OK to select a video frame, then press \(\downarrow\).
4. Follow the screen prompts.

A picture is created. (The original video is saved.)

Press the Menu button to exit the menu.

Trimming a video

You can delete an unwanted portion from the beginning or end of a video.

1. Press the Review button, then \(</>\) to find a video.
2. Press the Menu button, choose Edit Video, then press the OK button. Choose Trim, then press OK.
3. Follow the screen prompts.

The video is trimmed. (You can save it as a new video or replace the original.)

Press the Menu button to exit the menu.
Making a video action print

From a video, you can make a 4-, 9-, or 16-up picture, suitable for a 4 x 6-inch (10 x 15 cm) print.

1. Press the Review button, then press the Menu button. Choose Edit Video, then press the OK button. Choose Action Print, then press the OK button.

2. Choose an option, then press the OK button.
   - **Auto options:** The camera includes the first and last frames, then 2, 7, or 14 equally spaced frames.
   - **Manual options:** You choose the first and last frames; the camera chooses 2, 7, or 14 equally spaced frames.

3. Press the Menu button to exit the menu.

Running a slide show

Use Slide Show to display your pictures/videos on the LCD.

Starting the slide show

1. Press the Review button, then the Menu button.

2. Press 
   - **to highlight Slide Show, then press the OK button.**

3. Press 
   - **to highlight Begin Show, then press the OK button.**

   *Each picture/video is displayed once.*

   To interrupt the Slide Show, press the OK button.

www.kodak.com/go/support
Changing the slide show display interval
The default interval setting displays each picture for 5 seconds. You can set the display interval from 3–60 seconds.

1 On the Slide Show menu, press ▲/▼ to highlight Interval, then press the OK button.

2 Select a display interval.
   To scroll through the seconds quickly, press and hold ▲/▼.

3 Press the OK button.
   The interval setting remains until you change it.

Running a continuous slide show loop
When you turn on Loop, the slide show is continuously repeated.

1 On the Slide Show menu, press ▲/▼ to highlight Loop, then press the OK button.

2 Press ▲/▼ to highlight On, then press the OK button.

3 Press ▲/▼ to highlight Begin Show, then press the OK button.
   The slide show repeats until you press the OK button or until battery power is exhausted. The Loop feature remains until you change it.
Displaying pictures and videos on a television

You can display pictures/videos on a television, computer monitor, or any device equipped with a video input. To connect the camera to a television, use the A/V (audio/video) cable (may be sold separately).

NOTE: Ensure that the Video Out setting (NTSC or PAL) is correct (see page 38). The slide show stops if you connect a cable while the slide show is running. (Image quality on a television screen may not be as good as on a computer monitor or when printed.)
**Copying pictures/videos**

You can copy pictures/videos from a card to internal memory or from internal memory to a card.

**Before you copy, make sure that:**

- A card is inserted in the camera.
- The camera’s image storage location is set to the location from which you are copying (see page 36).

**Copy pictures/videos:**

1. Press the Review button, then the Menu button.
2. Press ▲▼ to highlight Copy ►, then press the OK button.
3. Press ▲▼ to highlight an option.
4. Press the OK button.

**NOTE:** Pictures/videos are copied, not moved. To remove pictures/videos from the original location after copying, delete them (see page 19).

Tags that you applied for print, email, and favorites are not copied. Protection settings are not copied. To apply protection to a picture/video, see page 20.

4 Transferring and printing pictures

Installing the software

⚠️ **CAUTION:**
Install EasyShare software before connecting the camera to the computer. Failure to do so may cause the software to load incorrectly.

1. Close all software applications that are open on your computer (including anti-virus software).
2. Place the EasyShare software CD into the CD-ROM drive.
3. Load the software:
   - **Windows OS**—if the install window does not appear, choose Run from the Start menu and type `d:\setup.exe` where `d` is the drive letter that contains the CD.
   - **Mac OS X**—double-click the CD icon on the desktop, then click the Install icon.
4. Follow the on-screen instructions to install the software.

   **NOTE:** When prompted, take few minutes to electronically register your camera and software. To register later, see [www.kodak.com/go/register](http://www.kodak.com/go/register).
5. If prompted, restart the computer. If you turned off anti-virus software, turn it back on. See the anti-virus software manual for details.

   For information on the software applications included on the EasyShare software CD, click the Help button in EasyShare software.
Transferring and printing pictures

Transferring pictures with the USB cable

1. Turn off camera.
2. Connect USB cable (U-8).
3. Turn on camera.

Kodak EasyShare software opens on your computer and prompts you through the transfer process.

NOTE: Visit www.kodak.com/go/howto for an online tutorial on connecting.

Also available for transferring

You can also use these Kodak products to transfer your pictures and videos.

- Kodak EasyShare camera dock, Kodak EasyShare printer dock (see page 30)
- Kodak multi-card reader, Kodak SD multimedia card reader-writer

Purchase these and other accessories at a dealer of Kodak products or www.kodak.com/go/c653accessories or www.kodak.com/go/c623accessories.
Transferring and printing pictures

Printing pictures

Printing with a Kodak EasyShare printer dock

Dock your camera to the Kodak EasyShare printer dock and print directly—with or without a computer. Purchase this and other accessories at a dealer of Kodak products or visit www.kodak.com/go/c653accessories or www.kodak.com/go/c623accessories.

Direct printing with a PictBridge enabled printer

Your camera is compatible with PictBridge technology, so you can print directly to PictBridge enabled printers. You need:

- Camera with fully charged batteries
- PictBridge enabled printer
- USB cable (may be sold separately)

Connecting the camera to a PictBridge enabled printer

1. Turn off the camera and printer.
2. Connect the appropriate USB cable from the camera to the printer. (See your printer user guide or visit www.kodak.com/go/c653accessories or www.kodak.com/go/c623accessories.)
Transferring and printing pictures

Printing from a PictBridge enabled printer

1. Turn on the printer. Turn on the camera.

   The PictBridge logo is displayed, followed by the current picture and menu. (If no pictures are found, a message is displayed.) If the menu interface turns off, press any button to redisplay it.

2. Press ▲/▼ to choose a printing option, then press the OK button.

<table>

</table>

NOTE: During direct printing, pictures are not permanently transferred or saved to the computer or printer.

Disconnecting the camera from a PictBridge enabled printer

1. Turn off the camera and printer.

2. Disconnect the USB cable from the camera and the printer.

Using a printer that is not PictBridge enabled

For details on printing pictures from your computer, click the Help button in EasyShare software.
Transferring and printing pictures

Ordering prints online

*Kodak EasyShare* Gallery ([www.kodakgallery.com](http://www.kodakgallery.com)) is one of the many online print services offered in the Kodak EasyShare software. You can easily:

- Upload your pictures.
- Edit, enhance, and add borders to your pictures.
- Store pictures, and share them with family and friends.
- Order high-quality prints, photo greeting cards, frames, and albums—and have them delivered to your door.

Printing from an optional SD/MMC card

- Automatically print tagged pictures when you insert your card into a printer with an SD/MMC card slot. See your printer user’s guide for details.
- Make prints at an SD/MMC-capable Kodak picture maker/picture kiosk. (Contact a location prior to visiting. See [www.kodak.com/go/picturemaker](http://www.kodak.com/go/picturemaker).)
- Take the card to your local photo retailer for professional printing.

Dock compatibility for your camera

To see which EasyShare printer docks are compatible with your camera, visit [www.kodak.com/go/dockcompatibility](http://www.kodak.com/go/dockcompatibility).

Purchase camera docks, printer docks, and other accessories at a dealer of Kodak products or [www.kodak.com/go/c653accessories](http://www.kodak.com/go/c653accessories) or [www.kodak.com/go/c623accessories](http://www.kodak.com/go/c623accessories).
Changing picture-taking settings
You can change settings to get the best results from your camera:

1. Press the Menu button.
2. Press ▲/▼ to highlight a setting, then press the OK button.
3. Choose an option, then press the OK button.
4. Press the Menu button to exit.

NOTE: Some settings remain until you change them; others remain until you turn the Mode dial or turn off the camera. Some settings are unavailable in some modes.

NOTE: Press the LCD/Info button  for information about camera settings and options.

### About

View camera information.
Doing more with your camera

Pre-tagging for album names

Use the Set Album (Still or Video) feature to pre-select album names before you take pictures or videos. Then, all the pictures or videos you take are tagged with those album names.

First—on your computer

Use the EasyShare software that was packaged with your camera to create album names on your computer. The next time you connect the camera to the computer, copy up to 32 albums to the album name list. See EasyShare software Help for details.

Second—on your camera

1 In any mode, press the Menu button.
2 Press ▲/▼ to highlight Set Album , then press the OK button.
3 Press ▲/▼ to highlight an album name, then press the OK button. Repeat to mark pictures or videos for albums.
   Selected albums are noted with a check mark.
4 To remove a selection, highlight an album name and press the OK button. To remove all album selections, select Clear All.
5 Highlight Exit, then press the OK button.
   Your selections are saved. If you turn on the LCD, your album selection is displayed on the screen. A plus (+) after the album name means more than one album is selected.
6 Press the Menu button to exit the menu.

Third—transfer to your computer

When you transfer the tagged pictures or videos to your computer, EasyShare software opens and categorizes your pictures in the appropriate album. See EasyShare software Help for details.
Tagging pictures/videos for albums

Use the Album feature in Review mode to tag the pictures/videos in your camera with album names.

First—on your computer

Use EasyShare software to create albums on your computer, then copy up to 32 album names to the camera’s internal memory. See EasyShare software Help for details.

Second—on your camera

1. Press the Review button, then locate the picture or video.
2. Press the Menu button.
3. Press ▲/▼ to highlight Album, then press the OK button.
4. Press ▲/▼ to highlight an album folder, then press the OK button.
5. To add other pictures to the same album, press ▲/▼ to scroll through the pictures. When the picture you want is displayed, press the OK button.
6. To add the pictures to more than one album, repeat step 4 for each album.

The album name appears with the picture. A plus (+) after the album name means the picture was added to more than one album.

To remove a selection, highlight an album name and press the OK button. To remove all album selections, select Clear All.

Third—transfer to your computer

When you transfer the tagged pictures/videos to your computer, EasyShare software opens and categorizes your pictures/videos in the appropriate album folder. See EasyShare software Help for details.
Doing more with your camera

Sharing your pictures
Press the Share button to tag your pictures and videos. When they are transferred to your computer, you can share them. Use the Share button:
- Any time. (The most recent picture/video taken is then displayed.)
- Just after you take a picture/video, during quickview.
- After pressing the Review button.

Tagging pictures for printing
1. Press the Share button. Press \( \uparrow / \downarrow \) to locate a picture.
2. Press \( \uparrow / \downarrow \) to highlight Print \( \bigcirc \), then press the OK button.*
3. Press \( \uparrow / \downarrow \) to select the number of copies (0-99). Zero removes the tag for that picture.
   **Optional:** You can apply a print quantity to other pictures. Press \( \uparrow / \downarrow \) to locate a picture. Press \( \uparrow / \downarrow \) to change the print quantity. Repeat until the desired print quantity is applied to pictures.
4. Press the OK button.
   *The Print icon \( \bigcirc \) appears in the status area.*
5. Press the Share button to exit the menu.
* To tag all pictures in the storage location, highlight Print All, press the OK button, then indicate the number of copies. Print All is not available in quickview. To remove print tagging for all pictures in the storage location, highlight Cancel Prints, then press the OK button. Cancel Prints is not available in quickview.

Printing tagged pictures
When you transfer the tagged pictures to your computer, the Kodak EasyShare software print screen opens. For details, click the Help button in EasyShare software. For more information on printing from your computer, printer dock, PictBridge enabled printer, or card, see page 30.
NOTE: For the best 4 x 6 in. (10 x 15 cm) prints, set the camera to the 5.4 MP (3:2) picture size setting. (See page 33.)

Tagging pictures and videos for emailing

First—on your computer
Use Kodak EasyShare software to create an email address book on your computer. Then copy up to 32 email addresses to the camera’s internal memory. For details, click the Help button in EasyShare software.

Second—tag pictures/videos on your camera
1 Press the Share button. Press \( \leftarrow / \) to locate a picture/video.
2 Press \( ↑/ \u2193 \) to highlight Email \( \text{✉} \), then press the OK button. The Email icon \( \text{✉} \) appears in the status area.
3 Press \( \leftarrow / \) to highlight an email address, then press the OK button.
4 To tag other pictures/videos with the same address, press \( ↑/ \u2193 \) to scroll through them. When the picture you want is displayed, press OK.
5 To send the pictures/videos to more than one address, repeat step 3 for each address. Selected addresses are checked.
6 To remove a selection, highlight a checked address and press the OK button. To remove all email selections, highlight Clear All.
7 Press \( ↑/ \) to highlight Exit, then press the OK button.
8 Press the Share button to exit the menu.

Third—transfer and email
When you transfer the tagged pictures/videos to your computer, the Email screen opens and lets you send them to the addresses you specified. For details, click the Help button in Kodak EasyShare software.
Doing more with your camera

Tagging pictures as favorites

You can preserve your favorite pictures in the Favorites section of your camera’s internal memory, then share them with friends and family.

NOTE: When you transfer pictures from your camera to your computer, all pictures (including favorites) are stored on your computer at full size. Favorite pictures - smaller copies of your originals - are loaded back to your camera, so you can share and enjoy more.

| 1. Tag pictures as favorites | 1 | Press the Share button. Press \( \downarrow / \uparrow \) to locate a picture. |
|                           | 2 | Press \( \downarrow / \uparrow \) to highlight Favorite, then press the OK button. The Favorite icon \( \heartsuit \) appears in the status area. To remove the tag, press the OK button again. Press the Share button to exit the menu. |

| 2. Transfer pictures to your computer | 1 | To enjoy all the available features, load and use the EasyShare software that was packaged with this camera. (See page 28.) |
|                                       | 2 | Connect the camera to the computer using the USB cable (see page 29) or an EasyShare dock. The first time you transfer pictures, the software helps you make choices about your favorite pictures. Then, your pictures are transferred to the computer. Favorite pictures (smaller versions of the originals) are loaded to the Favorites section of your camera’s internal memory. |

| 3. View favorites on your camera | 1 | Turn the Mode dial to Favorites. |
|                                   | 2 | Press \( \downarrow / \uparrow \) to scroll through favorites. |

NOTE: The camera holds a limited number of favorites. Use Camera Favorites in the EasyShare software to customize the size of your camera Favorites section. Videos tagged as favorites remain in the Favorites folder in EasyShare software. For details, click the Help button in EasyShare software.
Doing more with your camera

Optional settings

In Favorites mode, press the Menu button to access optional settings.

<table>
<thead>
<tr>
<th>Slide Show  (page 23)</th>
<th>Remove favorites (page 45)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Multi-up  (page 18)</td>
<td>Setup Menu (page 37)</td>
</tr>
</tbody>
</table>

NOTE: Pictures taken at the 5.4 MP (3:2) picture size setting are displayed at a 3:2 aspect ratio with a black bar at the top and bottom of the screen.

Removing favorites from your camera

1. Turn the Mode dial to Favorites.
2. Press the Menu button.
3. Highlight Remove Favorites, then press the OK button.
   
   All pictures stored in the Favorites section of internal memory are removed. Favorites are restored the next time you transfer pictures to the computer.
4. Press the Menu button to exit the menu.

Preventing favorites from transferring to the camera

1. Open Kodak EasyShare software. Click the My Collection tab.
2. Go to the Albums view.
3. Click the Camera Favorites Album for your camera.
4. Click Remove Album.
   
   The next time you transfer pictures from your camera to the computer, use the Camera Favorites Wizard/Assistant to either recreate your Camera Favorites Album or to turn off the Camera Favorites feature.
Doing more with your camera

Printing and emailing favorites

1. Turn the Mode dial to Favorites. Press \( \downarrow \) to locate a picture.
2. Press the Share button.
3. Highlight Print \( \square \) or Email \( \text{\textregistered} \), then press the OK button.

NOTE: Favorites that were taken on this camera (not imported from another source) are good for prints up to 4 x 6 in. (10 x 15 cm).
## Troubleshooting

### Camera problems

<table>
<thead>
<tr>
<th>If...</th>
<th>Try one or more the following</th>
</tr>
</thead>
</table>
| Camera does not turn on.                                             | - Install new batteries ([page 1](#)).  
- Charge rechargeable batteries.                                     |
| Camera does not turn off.                                            | - Remove the battery, then reinsert or replace it. If the camera still does not function,  
  visit [www.kodak.com/go/c653support](http://www.kodak.com/go/c653support) or  
  [www.kodak.com/go/c623support](http://www.kodak.com/go/c623support) and select Interactive  
  Troubleshooting & Repairs.                                          |
| Pictures remaining number does not decrease after taking a picture.  | - The camera is operating normally. Continue taking pictures.                                |
| Short battery life with Kodak Ni-MH rechargeable digital camera      | - Wipe the contacts with a clean, dry cloth ([see page 62](#)) before loading batteries in  
  batteries.  
- Limit the following activities that quickly deplete battery power:  
  reviewing pictures/videos on the LCD; using the LCD as a viewfinder;  
  and excessive use of the flash.  
- Use the Refresh feature on your camera dock series 3 or printer dock  
  series 3.                                                          |
| Stored pictures are corrupted.                                       | - Retake pictures. Do not remove card while the Ready light is blinking.  
  Keep rechargeable batteries charged.  
  Transfer the pictures to the computer ([page 29](#)), then format the card in the  
  camera ([see page 39](#)).  
  **Caution:** Formatting a card deletes all pictures and videos,  
  including protected files.                                           |

[www.kodak.com/go/support](http://www.kodak.com/go/support)
<table>
<thead>
<tr>
<th>If...</th>
<th>Try one or more the following</th>
</tr>
</thead>
</table>
| In Review mode, you do not see a picture (or the expected picture) on the LCD screen. | - Check the image storage location setting (see page 36).  

| In Review mode, a blue or black screen is displayed instead of a picture. | - Transfer the picture to the computer (page 29), then format the card in the camera (see page 39).  

**Caution:** Formatting a card deletes all pictures and videos, including protected files. |
| Shutter button does not work. | - Turn on the camera (page 2).  

- Wait until the Ready light stops blinking red before attempting to take another picture.  

- Transfer pictures to the computer (page 29), delete pictures from the camera (page 19), switch image storage locations (see page 36), or insert a card with available memory (page 3). |
| Slide show does not run on external video device. | - Adjust the camera Video Out setting (NTSC or PAL, see page 38).  

- See the external device’s user’s guide. |
| Picture is too light. | - Move so there is at least 2 ft (0.6 m) between the camera and the subject.  

- Decrease Exposure Compensation (page 14). |
| Picture is not clear. | - Clean the lens (see page 62).  

- Make sure your camera is not in Close-up mode.  

- Move so there is at least 2 ft (0.6 m) between the camera and the subject.  

- Place the camera on a flat, steady surface or use a tripod. |
## Troubleshooting

<table>
<thead>
<tr>
<th>If...</th>
<th>Try one or more the following</th>
</tr>
</thead>
</table>
| Picture is too dark.          | - Turn on the flash (page 11).  
- Move so there is no more than 11.8 ft (3.6 m) in wide angle and 6.9 ft (2.1 m) in telephoto between the camera and the subject.  
- Use Fill flash (see page 11) or change your position so light is not behind the subject.  
- Increase Exposure Compensation (page 14). |
| Camera does not recognize SD/MMC card. | - Purchase a certified SD/MMC card.  
- Reformat the card (see page 39).  
**Caution:** Formatting a card deletes all pictures and videos, including protected files.  
- Insert a card into the slot, then push to seat (page 3). |
| Camera freezes up when a card is inserted or removed. | - Turn the camera off, then back on. Make sure the camera is turned off before inserting or removing a card. |
| Memory card full.             | - Insert a new card (page 3), transfer pictures to the computer (page 29), or delete pictures (page 19). |
| Memory card and internal memory full. | - Transfer pictures to the computer (page 29), then format the card or internal memory (see page 39).  
**Caution:** Formatting a card deletes all pictures and videos, including protected files. |

### Camera ready light status

Important safety instructions

⚠️ CAUTION:
Do not disassemble this product; there are no user-serviceable parts inside. Refer servicing to qualified service personnel. Kodak AC adapters and battery chargers are intended for indoor use only. The use of controls, adjustments, or procedures other than those specified herein may result in exposure to shock and/or electrical or mechanical hazards. If the LCD breaks, do not touch the glass or liquid. Contact Kodak customer support.

- The use of an accessory that is not recommended by Kodak may cause fire, electric shock, or injury. For approved accessories, visit www.kodak/go/accessories.
- Use only a USB-certified computer equipped with a current-limiting motherboard. Contact your computer manufacturer if you have questions.
- If using this product in an airplane, observe all instructions of the airline.
- When removing the battery, allow it to cool; it may be hot.
- Read and follow all warnings and instructions supplied by the battery manufacturer.
- Use only batteries approved for this product to avoid risk of explosion.
- Keep batteries out of the reach of children.
- Do not allow batteries to touch metal objects, including coins. Otherwise, a battery may short circuit, discharge energy, become hot, or leak.
- Do not disassemble, install backward, or expose batteries to liquid, moisture, fire, or extreme temperature.
- Remove the battery when the product is stored for an extended period of time. In the unlikely event that battery fluid leaks inside the product, contact Kodak customer support.
- In the unlikely event that battery fluid leaks onto your skin, wash immediately with water and contact your local health provider. For additional health-related information, contact your local Kodak customer support.
Appendix

- Dispose of batteries according to local and national regulations. Visit www.kodak.com/go/kes.
- Do not charge non-rechargeable batteries.
  For more information on batteries, see www.kodak.com/go/batterytypes.

**Battery life**

Use these Kodak batteries. (Battery types are also molded into the battery door.)

</tr>
</tbody>
</table>

For acceptable battery life, and to make sure your camera operates dependably, use the batteries listed. Actual battery life may vary based on usage.
Appendix

Extending battery life

- See Auto Power Off (see page 38).

- Limit the following activities that quickly deplete battery power:
  - Reviewing your pictures on the LCD (see page 17)
  - Using the LCD as a viewfinder (see page 7)
  - Excessive use of the flash

- Dirt on the battery contacts can affect battery life. Wipe the contacts with a clean, dry cloth before loading batteries in the camera.

- Battery performance is reduced at temperatures below 41°F (5°C). When using your camera in cold weather, carry spare batteries and keep them warm. Do not discard cold batteries that do not work; when they return to room temperature, they may be usable.

Upgrading your software and firmware

Download the latest versions of the software included on the Kodak EasyShare software CD and the camera firmware (the software that runs on the camera). See www.kodak.com/go/c653downloads or www.kodak.com/go/c623downloads.

Care and maintenance

- If you suspect water has gotten inside the camera, remove the battery and card. Allow all components to air-dry for at least 24 hours before using the camera.

- Blow gently on the lens or LCD to remove dust and dirt. Wipe gently with a soft, lint-free cloth or an untreated lens-cleaning tissue. Do not use cleaning solutions unless designed specifically for camera lenses. Do not allow chemicals, such as suntan lotion, to contact painted surfaces.

- Service agreements may be available in your country. Contact a dealer of Kodak products for more information.

- For digital camera disposal or recycling information, contact your local authorities.
In the US, visit the Electronics Industry Alliance Web site at www.eiae.org or the Kodak Web site at www.kodak.com/go/c653support or www.kodak.com/go/c623support.

Warranty

Limited warranty
Kodak warrants Kodak consumer electronic products and accessories ("Products"), excluding batteries, to be free from malfunctions and defects in both materials and workmanship for one year from the date of purchase.

Retain the original dated sales receipt. Proof of the date of purchase will be required with any request for warranty repair.

Limited warranty coverage
Warranty service is only available from within the country where the Products were originally purchased. You may be required to ship Products, at your expense, to the authorized service facility for the country where the Products were purchased.

Kodak will repair or replace Products if they fail to function properly during the warranty period, subject to any conditions and/or limitations stated herein. Warranty service will include all labor as well as any necessary adjustments and/or replacement parts. If Kodak is unable to repair or replace a Product, Kodak will, at its option, refund the purchase price paid for the Product provided the Product has been returned to Kodak along with proof of the purchase price paid. Repair, replacement, or refund of the purchase price are the sole remedies under the warranty.

If replacement parts are used in making repairs, those parts may be remanufactured, or may contain remanufactured materials. If it is necessary to replace the entire Product, it may be replaced with a remanufactured Product. Remanufactured Products, parts and materials are warranted for the remaining warranty term of the original Product, or 90 days after the date of repair or replacement, whichever is longer.
Appendix

Limitations
This warranty does not cover circumstances beyond Kodak’s control. This warranty does not apply when failure is due to shipping damage, accident, alteration, modification, unauthorized service, misuse, abuse, use with incompatible accessories or attachments (such as third party ink or ink tanks), failure to follow Kodak’s operation, maintenance or repacking instructions, failure to use items supplied by Kodak (such as adapters and cables), or claims made after the duration of this warranty.

Kodak makes no other express or implied warranty for this product, and disclaims the implied warranties of merchantability and fitness for a particular purpose. In the event that the exclusion of any implied warranty is ineffective under the law, the duration of the implied warranty will be one year from the purchase date or such longer period as required by law.

The option of repair, replacement, or refund is Kodak’s only obligation. Kodak will not be responsible for any special, consequential or incidental damages resulting from the sale, purchase, or use of this product regardless of the cause. Liability for any special, consequential or incidental damages (including but not limited to loss of revenue or profit, downtime costs, loss of the use of the equipment, cost of substitute equipment, facilities or services, or claims of your customers for such damages resulting from the purchase use or failure of the Product), regardless of cause or for breach of any written or implied warranty is expressly disclaimed.

Your rights
Some states or jurisdictions do not allow exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. Some states or jurisdictions do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

This warranty gives you specific rights, and you may have other rights which vary from state to state or by jurisdiction.
Outside the United States and Canada

In countries other than the United States and Canada, the terms and conditions of this warranty may be different. Unless a specific Kodak warranty is communicated to the purchaser in writing by a Kodak company, no warranty or liability exists beyond any minimum requirements imposed by law, even though defect, damage, or loss may be by negligence or other act.

Regulatory compliance

FCC compliance and advisory

Kodak EasyShare C653/C623 zoom digital camera

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed or used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: 1) reorient or relocate the receiving antenna; 2) increase the separation between the equipment and the receiver; 3) connect the equipment to an outlet on a circuit different from that to which the receiver is connected; 4) consult the dealer or an experienced radio/TV technician for additional suggestions.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. Where shielded
Appendix

interface cables have been provided with the product or specified additional components or accessories elsewhere defined to be used with the installation of the product, they must be used in order to ensure compliance with FCC regulation.

Australian C-Tick

N137

Canadian DOC statement

DOC Class B Compliance

This Class B digital apparatus complies with Canadian ICES-003.

Observation des normes-Classe B

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Waste Electrical and Electronic Equipment labeling

In the European Union, do not discard this product as unsorted municipal waste. Contact your local authorities or go to www.kodak.com/go/recycle for recycling program information.

Korean Class B ITE

Note: The term "Recycling" can be translated as "Recycling" in Korean.

VCCI Class B ITE

In the United States, do not discard this product as unsorted municipal waste. Contact your local authorities or go to www.kodak.com/go/recycle for recycling program information.
