3 Storing pictures on a microSD/SDHC Card

You must purchase a microSD or microSDHC Card to store more pictures and videos.

⚠ CAUTION:

Inserting or removing a card when the camera is on may damage the pictures, card, or camera.

① Turn off the camera.

② Insert or remove the card.

③ Turn on the camera.
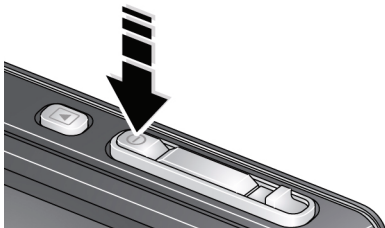

NOTE: Avoid touching the card's metal contacts.

To clean the contacts, use a dry cotton swab or a lint-free cloth.

4 Turning on the camera

5 Setting the language, date/time

1. Drag or swipe to scroll.
2. Tap your language.
3. Tap X to accept.

1. Tap Set Date/Time.
2. ▲ ▼ to change date format, date, and time. (Tap/hold to scroll quickly.)
3. Tap X to accept.

To learn more about using the touchscreen, see page 13.

6 Taking a picture

When you turn on the camera, it's ready to take pictures in Smart Capture mode ⓢ.

1. Press the Shutter button halfway to lock the focus.

2. When the framing marks turn green, press the Shutter button completely down.

Framing marks

IMPORTANT: When you take a picture, your camera saves:

- full-size pictures on your card, *and*

- smaller copies of pictures in the SLICE Album

When you transfer pictures/videos to your computer, only the full-size versions (from your card or internal memory) are transferred. Your SLICE Album keeps copies, so you can relive the experience of each picture!

Learn more about SLICE Album	see page 18

8 Transferring pictures to your computer

Download KODAK Software—so it's easy to transfer and share pictures and videos. Make sure the computer is connected to the Internet. When you connect the camera to the computer, the KODAK Software Downloader automatically runs. Follow the prompts to download and install KODAK Software.*

① Turn off the camera.

② Use the KODAK Camera USB Cable, Micro B / 5-Pin to connect camera to computer. (Use only the cable included with this camera!)

③ Turn on the camera.

④ Follow the prompts to run the KODAK Software Downloader on your computer.

⑤ After the software is installed, follow the prompts to transfer pictures and videos to your computer.

* If the KODAK Downloader does not run, find and launch it here:
 • WINDOWS OS: in My Computer
  • MAC OS: on the Desktop

NOTE: You can also use a card reader to transfer your pictures/videos.

Download Software later www.kodak.com/go/camerasw

Using on-camera Help

① Tap the Menu 📋 icon.

② On a main menu, Tap/hold a menu item.
(Or, when an ℹ️ icon is available, tap it.)

③ Drag or swipe to scroll through a Help topic.

Sharing via social networking sites

IMPORTANT: To use the social networking features,
you need to download KODAK Software.

① Press the Review button ▶, then find a picture/video.

② Tap the Share share icon.

③ Tap one or more social networking sites so a check
mark appears. (Drag or swipe the list of sites.)

④ When finished, tap X.
When you transfer the picture to your computer, it is
sent to the networking site(s) that you chose.

Capture modes

Tap the Capture icon, then tap the mode that suits your subjects and surroundings.

Capture mode	For
Smart Capture	General picture taking—it offers excellent image quality and ease of use.
Program (P)	More creative control. (See the Extended user guide at www.kodak.com/go/manuals.)
Video	Video with sound. (See page 14.)
Scene	Point-and-shoot simplicity when taking pictures under special conditions. (See page 16).

To access the camera Help system, see page 10.

Scene modes

Scene modes are preset for a variety of unique situations.

**1** Tap the Capture icon (see page 15), then tap Scene **SCN**.

2 Tap a Scene mode to read its description.

NOTE: If the description turns off before you finish reading it, tap it again.

3 Tap X to choose a Scene mode (Portrait, Sport, Landscape, Close-up, Sunset, Backlight, Children, Bright, Self-portrait, Night Portrait, Night Landscape, High ISO, Panorama L-R, Panorama R-L).
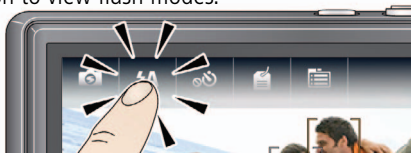

Using zoom

Use optical zoom to get up to 5X closer to your subject while taking pictures. Press Telephoto (T) to zoom in. Press Wide Angle (W) to zoom out.

Zoom out (Wide)

Zoom in (Telephoto)

Using the flash

Use the flash when you take pictures at night, indoors, or outdoors in heavy shadows. Flash settings are limited in some capture modes.

1) Tap the Flash icon to view flash modes.

2) Tap the desired Flash mode.

Flash modes		Flash fires
Auto	🗲A	When the lighting conditions require it.
Fill	🗲	Every time you take a picture. NOTE: Not available in Smart Capture mode.
Red-eye Reduction Choose a setting in the Setup menu.	Preflash 🗲👁	A preflash fires, shrinking the eye pupil, before the picture is taken.
	Digital Correction 👁	A preflash does not fire; the camera corrects red eye. NOTE: Image processing takes longer than when using preflash.
Off	🚫	Never.

2 Using your SLICE Album

Your camera stores a copy of every picture you take, so your collection—your SLICE Album—is always complete and portable! When you take pictures, your camera saves:

- full-size pictures on your card, *and*
- smaller copies in the SLICE Album

To view your SLICE Album, press and hold the Review button—even if the camera is off—or tap the card or SLICE Album icon, then tap SLICE Album.

Labels (clockwise from top-left):

- Battery level

Screen text: All

Tips:

- Tag the pictures to make them easier to find, see page 19.
- Use the Search feature to find pictures, see page 20.

Tagging pictures so they are easy to find

Tag pictures to make them easy to find, later. You can tag people, locations, or keywords. For example, the camera can find pictures that contain "Mary" or "Boston" or "Dad's 60th."

Assigning people tags to pictures

1 Press the Review ▶ button. Tap the left/right side of the screen (or swipe) to find a picture that contains faces.

2 Tap the Tag icon, tap Tag People, then tap Apply Tags.

A Name box is superimposed over each detected face (up to 5).

3 If the camera recognizes a face, confirm it. (If you do nothing, the camera assumes that the names are correct.) If the camera is not correct, tap the Name box, then choose an existing name or add a new one.

Repeat these steps to assign names to other faces. When finished, tap X.

Assigning location tags to pictures

1 Press the Review ▶ button, then find a picture to tag.

2 Tap the Tag icon, then tap Location.

**3** Tap Enter New Location or Recent Location.

When finished, tap X.

> **NAVTEQ MAPS** *Navteq is a trademark in the U.S. and other countries.*

Assigning keyword tags to pictures

1 Press the Review ▶ button, then find a picture to tag.

2 Tap the Tag icon, then tap Keyword Tag.

3 Tap an existing keyword or tap Add New.

Using the Search feature to find pictures

Tag pictures to make them easy to find, later. (See page 19.)

All

By faces

By date

1 Press the Review ▶ button.

2 Tap the microSD Card or SLICE Album icon.

- To view the previous/next picture, either swipe left/right or touch the left/right side of the screen.

- To view thumbnails, tap (or drag up) the thumbnail bar.

- To exit the Search feature, tap X.

More details about the SLICE Album

- When you transfer pictures to your computer, only the full-size versions are transferred.

- If you delete a picture during a quickview, that picture is **not** created in the SLICE Album.

- If you delete a picture from a card or internal memory, that picture is **not** deleted from the SLICE Album.

- If you edit a picture on the card or internal memory, that picture is updated in the SLICE Album.

3 Getting help

For product support, go to www.kodak.com/go/slicesupport and choose Step-by-Step Solutions & Repair.

If the camera does not turn on/off:

If battery power is extremely low, the camera may turn off. In most cases, this is normal and can be corrected by recharging the battery.

In the U.S. and other countries where the Step-by-Step Solutions & Repair tool is available:

■ Recharge the battery or install a new one. See page 1.
■ If the problem persists, go to www.kodak.com/go/slicesupport and select Step-by-Step Solutions & Repair to resolve or to set up a repair request.

In countries where the Step-by-Step Solutions & Repair tool is not available:

■ Recharge the battery or install a new one. See page 1.

If the problem persists:

■ Verify that you are using the correct battery. Go to www.kodak.com/go/batterychart.
■ Recharge the battery or install a new one. See page 1.
■ If the problem persists, go to www.kodak.com/go/wwcontacts to locate your nearest repair center.

Download software	www.kodak.com/go/slicedownloads
Register your camera	www.kodak.com/go/register
Email, write, or chat with Kodak (where available)	www.kodak.com/go/contact

4 Appendix

Upgrading your software and firmware

Download the latest versions of KODAK Software and the camera firmware (the software that runs on the camera). See www.kodak.com/go/slicedownloads.

FCC compliance and advisory

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The KODAK High Performance USB AC Adapter K20-AM complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Canadian DOC statement

DOC Class B Compliance—This Class B digital apparatus complies with Canadian ICES-003.

Observation des normes-Classe B—Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

MPEG-4

Use of this product in any manner that complies with the MPEG-4 visual standard is prohibited, except for use by a consumer engaging in personal and non-commercial activities.

CE

Hereby, Eastman Kodak Company declares that this KODAK Product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
