1 Getting started

Welcome to your KODAK EASYSHARE Digital Frame. Viewing and sharing your pictures couldn’t be simpler!

Attaching the stand

Attach the stand
Push the notched end of the stand into the back of the frame until it snaps into place.

When displayed with the stand extended, the frame rests at a 75° angle.

Storing the stand

Remove the stand
Pull the stand to remove it from the back of the frame.

Store the stand
Snap the stand into the holder.
Getting started

Attaching the power cable

⚠️ CAUTION:
Do not use this power cable with other devices, including digital cameras.

If more than one plug is included, use the plug for your type of power outlet.

- The frame automatically turns on when you plug it in for the first time.
- If the frame loses power or you unplug it for more than a minute, you are prompted to reset the time and date when power is restored or when you plug it back in.

Setting your language

The language screen appears the first time you turn on your frame.

To change the language at a later time:

1. Press **OK** to pause a slideshow and display the control panel icons.
2. Press **←** to highlight **(Settings)**, then press **OK**.
3. Press **↓** to highlight **Language**, then press **OK**.
4. Press **↓** to highlight your language, then press **OK**.
Setting the time, date, and on/off times

The first time you turn on your frame, the Time, Date, and On/Off screens appear automatically after you select your language.

To set the current date and time:
- Press \( \uparrow \) to change values.
- Press \( \leftarrow \) to move to the next entry.
- When you’ve entered all the settings, press OK.

For details on setting the 12- or 24-hour clock, current time, date, and on/off times, see page 22.

Turning your frame on and off

The frame automatically turns on when it is plugged in for the first time.

Power button—to turn the frame on or off, press and hold (for about 2 seconds), then release.
Getting started

Inserting a memory card

- To insert a card, push it firmly into the slot.
- To remove a card, pull it out of the slot.

IMPORTANT: *If you are using a micro or mini memory card (MS PRO or MS PRO Duo), insert it into an adapter first or it could get stuck in the display card slot. Memory cards and adapters are sold separately.
Inserting a USB device

- Supported USB devices include flash drives and card readers.
- USB devices are sold separately.
Getting started

Copying pictures to your frame

Copy pictures to your frame’s internal memory from a memory card or USB device. Each time you insert a card or USB device, press OK and follow the copy directions.

⚠️ CAUTION:
Do not remove a card or disconnect a device while copying. Your card, pictures, or device could be damaged.

1. Insert a memory card or USB device (flash drive, card reader, hard drive).
   The pictures start playing. A copy message appears for 15 seconds, “To copy pictures from <inserted source> to the frame’s internal memory, press OK.”

2. While the copy message is displayed, press OK.

3. Highlight your copy method:
   - This picture—copy the displayed picture.
   - All pictures in folder—copy all the pictures in a folder (folder represents the folder name, if there are any folders on the inserted card or device).
   - All pictures in source—copy all of the pictures on the card or USB device (source represents the type of card or device that’s inserted in the frame).

4. Press OK.
   The slide show plays while pictures are being copied.

NOTE: Copies are automatically resized to a lower resolution (smaller size). Full resolution is unnecessary for viewing and quickly fills up the frame’s memory.

Copying from internal memory to a memory card or USB device is not supported.
To copy pictures anytime a slide show is playing, with a card or USB device inserted, press OK, highlight (Copy), and continue with step 3 above.
Getting started

Copying pictures from a computer, using a memory card

The easiest way to copy a large number of pictures from your computer to your frame’s internal memory:

1. Insert an empty memory card or USB device into your computer.
2. Copy some or all of the pictures from your computer onto the card or USB device.
3. Remove the card or USB device from your computer, and insert it into the frame.
4. Follow the copy directions on page 8 (highlight All pictures, then press OK).

Copying pictures from a digital camera

1. Remove the memory card (containing pictures) from your camera, and insert it into the frame.
2. Follow the copy directions on page 8.
Viewing pictures

View pictures from your frame's internal memory or any connected picture source (memory card, USB device).

- By default, pictures play in random order. For different ways of viewing your pictures, see Searching for and viewing your pictures, page 11.
- You can change the duration (how long each picture stays on the screen) and transition style between pictures. See Changing frame settings, page 19.

Viewing from internal memory

Pictures play from the frame’s internal memory when no card or USB device is inserted.

- Turn on the frame.
  
  All pictures in your frame’s internal memory begin to play automatically.

NOTE: Make sure no memory card or USB device is inserted in the frame.
To copy pictures into the frame’s internal memory, see page 8.

Viewing from a memory card or USB device

Pictures play from a memory card or USB device whenever one is inserted in the frame.

- Turn on the frame. Insert a memory card, USB flash drive, or other USB device (see page 6).
  Your pictures start playing automatically.
- To copy pictures into the frame’s internal memory, press OK and follow the screen instructions (see page 8).
Searching for and viewing your pictures

1. Press OK to pause a slide show and display the control panel icons.
2. Press \( \rightarrow \) to highlight \( \) (Pictures), then press OK.

   NOTE: The Pictures icon changes to indicate your current picture source (see page ii).

3. Press \( \leftarrow \rightarrow \) to highlight the different ways to search for and play your pictures.

   - All—searching and viewing all pictures
   - Select All and press OK. All of the pictures in the current picture source are displayed as thumbnails.

   1. Press \( \downarrow \) to highlight the first thumbnail.
      
      For details on moving through the thumbnails, see Viewing thumbnails, page 15.
      
   2. Press OK to display the highlighted thumbnail at full-screen.
   3. Press OK again to start the slide show.
Viewing pictures

Date—searching and viewing by date

Select and press OK. A film strip of the pictures in the current picture source is displayed, organized by date.

NOTE: Make sure the time and date are set accurately on your camera or other capture device.

If you modify pictures on your computer, the frame uses the modify date, not the capture date.

1 Press \( \uparrow \) to highlight the current picture in the film strip.

2 Press \( \leftrightarrow \) to navigate through the film strip. To move even faster, press and hold an arrow button.

3 To quickly move through many pictures in the film strip, press \( \uparrow \) to highlight the slider bar. Then press \( \leftrightarrow \).

4 To search by specific month and year, press \( \uparrow \) to highlight the date bar. Then press \( \leftrightarrow \).

5 Press OK to display thumbnails of the pictures taken on the date of the selected picture.

For details on moving through the thumbnails, see Viewing thumbnails, page 15.
Folders—searching and viewing by folders
Select \[\] and press \textbf{OK}. Folders in the current picture source are listed here.

1. Press \(\uparrow\) to highlight the first folder in the list.

2. Press \(\downarrow\) to navigate through the folders. To move even faster, press and hold an arrow button.
   
   \textit{A preview slide show plays of the pictures in the highlighted folder.}

3. Press \textbf{OK} to display thumbnails of the pictures in the folder.
   
   For details on moving through the thumbnails, see \textit{Viewing thumbnails, page 15.}

4. Press \textbf{OK} to display the highlighted thumbnail at full-screen.

5. Press \textbf{OK} again to start the slide show.

Keywords—searching and viewing by keywords
KODAK Digital Cameras (and others) let you tag pictures with keywords. Select \[\] and press \textbf{OK}. If there are any pictures tagged with keywords in the current picture source, they are listed here.

1. Press \(\uparrow\) to highlight the first keyword in the list.

2. Press \(\downarrow\) to navigate through the keywords. To move even faster, press and hold an arrow button.
   
   \textit{A preview slide show plays of the pictures with the highlighted keywords.}

3. Press \textbf{OK} to display thumbnails of the pictures with that keyword.
   
   For details on moving through the thumbnails, see \textit{Viewing thumbnails, page 15.}

4. Press \textbf{OK} to display the highlighted thumbnail at full-screen.

5. Press \textbf{OK} again to start the slide show.
Viewing pictures

People—searching and viewing by people

The latest KODAK Digital Cameras let you identify people in your pictures. Select and press OK. If there are any identified people in the current picture source, they are listed here, grouped by person.

1. Press \( \downarrow \) to highlight the first person in the list.

2. Press \( \uparrow \) to navigate through the people. To move even faster, press and hold an arrow button. A preview picture of the highlighted person is displayed.

3. Press OK to display thumbnails of pictures of that person. For details on moving through the thumbnails, see Viewing thumbnails, page 15.

4. Press OK to display the highlighted thumbnail at full-screen.

5. Press OK again to start the slide show.

Favorites—searching and viewing favorites

KODAK Digital Cameras let you tag pictures as favorites. Select \( \bullet \) and press OK. If there are any favorites in the current picture source, they are displayed as thumbnails.

1. Press \( \downarrow \) to highlight the first thumbnail. For details on moving through the thumbnails, see Viewing thumbnails, page 15.

2. Press OK to display the highlighted thumbnail at full-screen.

3. Press OK again to start the slide show.
Viewing thumbnails

View the pictures on your frame as thumbnails when you’re searching for pictures (page 11).

1 Press ▼ to highlight the first thumbnail.
2 Press the arrows to navigate through the thumbnails. To move even faster, press and hold an arrow button.
3 To quickly page through the thumbnails, continue to press ▼ to highlight the slider bar. Then press ◄►.
4 Press OK to display the highlighted thumbnail at full-screen.
5 Press OK again to start the slide show or press the back button to return to thumbnails view.
Viewing pictures

Changing viewing modes

Press the **mode** button to change how you display pictures on your frame.

- Each time you press the **mode** button, the frame advances to the next viewing mode.
- Available viewing modes are: single picture, collage, clock, and calendar.
- There are several styles of collage, clock, and calendar modes available. To change the style, highlight the Set Modes icon from the main control panel. See **Setting viewing modes, page 25.**
Picture Finder—auto-play similar pictures

Picture Finder lets you automatically play the pictures that were taken on the same day as the picture on the screen.

NOTE: Make sure the time and date are set accurately on your camera or other capture device.

If you modify pictures on your computer, the frame uses the modify date, not the capture date.

Play similar pictures

1. While a slide show is playing, press OK to pause play and display the main control panel icons.

2. Press to highlight (Picture Finder), then press OK.

Pictures that were taken on the same day as the selected picture begin playing.

Play similar pictures from collage mode

Play similar pictures while in collage mode.

1. Press the mode button to change to collage mode (see page 16).

2. Press OK to pause play and display the main control panel icons.

Picture Finder is highlighted.

3. Press OK, then press to highlight a picture in the collage.

4. To highlight a different picture in the collage, press , then press OK.

Pictures begin playing that were taken on the same day as the highlighted picture.

Exit Picture Finder

1. Press OK to pause Picture Finder and display the main control panel icons.

2. Press to highlight (Picture Finder), then press OK.

Random pictures resume playing.
Viewing pictures

Pausing play on a single picture

■ When a slide show is playing, press OK.

The slide show pauses with the current picture displayed. The main control panel appears with Play highlighted.

■ To resume the slide show, press back or OK.

Deleting pictures from your frame

You can delete pictures from your frame’s internal memory but not from an inserted memory card or USB device.

1 Make sure no memory card or USB device is inserted in the frame. When a slide show is playing from internal memory, press OK.

The main control panel appears.

2 Press ➞ to highlight ✂️ (Delete), then press OK.

3 Highlight your delete method:

This picture—delete the displayed picture.

Exit (default)—exit the delete screen without deleting the picture.

All pictures in folder—delete all the pictures in a folder (folder represents the folder name, if there are any folders on the frame).

All pictures on frame—delete all of the pictures on the frame.

4 Press OK.
Changing settings and more

Changing frame settings

The options in the Settings menu let you customize and configure your frame.

IMPORTANT: You may need to keep pressing the up/down arrows to see the complete list of available options.

1 While a slide show is playing, press OK to pause play and display the main control panel icons.

2 Press → to highlight (Settings), then press OK.

3 Press ↑ to highlight a Setting, then press OK to display the setting options.

4 If the options are displayed in a list (no radio buttons), press ↓ to highlight an option, then press OK.

5 If the options are displayed with radio buttons, press ↓ to highlight your choice, then highlight Save and exit and press OK.
## Settings

To return to the previous screen, press **back**.

</tr>
</tbody>
</table>
Setting the time, date, and on/off times

The first time you turn on your frame, the Time, Date, and On/Off screens each appear automatically after you select your language (see page 5).

To change the settings after your frame is set up and running:

1. Press **OK** to pause a slide show and display the control panel icons.

2. Press **to highlight** (Settings), then press **OK**.

   NOTE: Press arrow buttons **to highlight options and change settings.**

Set the time

1. Highlight **Time**, then press **OK**.

2. Press **to change time format (12:00 or 24:00 hour clock), hour, minutes and AM/PM.**

3. Press ** to move to the next entry.

4. Press **OK**.

   The Date screen appears.

Set the date

1. Press ** to change the date format, month, day, and year.

2. Press ** to move to the next entry.

3. Press **OK**.

   The On/Off Times screen appears.

   NOTE: If the frame loses power or you unplug it for more than a minute, you are prompted to reset the time and date when power is restored or when you plug it back in.
Set on/off times
Highlight the option you want, then press OK to activate it.

**Always on**—frame stays on until you press the power button or unplug it.

**Manually set on/off time (default)**—frame turns itself on and off at pre-set times. The default turns the frame on in the morning and off at night. To change the on/off times, see **Manually set auto on/off times**, below.

**Manually set auto on/off times**
You specify the times you want your frame to automatically turn on and off.

1. Press \( \downarrow \) to change hour, minutes and AM/PM.
2. Press \( \leftrightarrow \) to move to the next entry.
3. Press OK when finished.

**NOTE:** The on and off times you set go into effect in the future. For example, if it’s currently 10:00 pm and you set the off time for 9:00 pm, the frame will stay on until the next evening at 10:00 pm.
Changing settings and more

Setting transitions between pictures

Choose how long each picture is displayed and a transition style between pictures.

1. Press OK to pause a slide show and display the control panel icons.

2. Press ➔ to highlight (Transitions), then press OK.

3. Press ◀ to highlight a timing and transition option, then press OK.

<table>
<thead>
<tr>

<td>pictures change once every 5 seconds</td>
<td>gentle motion to the left</td>
</tr>
</tbody>
</table>
Setting viewing modes

There are several styles of clock, calendar, and collage modes available. Preview the available modes and select your choices here.

1. While a slide show is playing, press **OK** to pause play and display the main control panel icons.

2. Press **to highlight** (Set Modes), then press **OK**.

3. Press **to highlight a mode.**

4. With Clock, Calendar, or Collage highlighted, press **to highlight and preview each different style. Leave the highlight on the style you wish to select.**

   **NOTE:** Collage styles include Multi-Grid, Single Grid, and Picture Book. You can change the background that is displayed behind Picture Book (see page 20).

5. Press **OK** to exit and save your selections.

   *Now when you press the mode button (see page 16), your pictures will be displayed in the style that you’ve selected.*
Changing settings and more

Upgrading your firmware (recommended)

Firmware is the software that runs on your frame. Download and install the latest version from the Web to keep your frame up to date.

Check your frame's current firmware version

Go to the About screen in the Settings menus (see Changing frame settings, page 19 and page 21). Note the firmware version on the About screen.

Download the latest firmware

1. On your computer, go to www.kodak.com/go/digitalframedownloads.
2. Enter your frame model and note the firmware version that’s available for download. If it’s newer than the version on your frame, follow the screen directions to download the frame firmware to your computer.
3. When the firmware is downloaded, copy the IMG file to the root directory (top level, not in a folder or subfolder) of a memory card or USB flash drive.

Upgrade your frame

1. Remove the memory card or USB flash drive from your computer, then insert it into the frame.
2. Press OK to pause the slide show and display the main control panel icons.
3. Press to highlight (Settings), then press OK.
4. Highlight Firmware upgrade, then press OK.

The upgrade may take up to 5 minutes. When the upgrade is complete, your frame automatically restarts.

! CAUTION:

Do not turn off the frame or remove the memory card or USB flash drive until the upgrade is complete and the frame has restarted.
Changing your frame orientation

Your frame is set up to display pictures in landscape orientation. To change the orientation to portrait, rotate your pictures in the Settings menu (see page 20) and then turn the frame on its side.

Hanging your frame on the wall

To hang your frame on the wall in landscape orientation, remove the stand, then use wall anchoring hardware (not included) to securely mount the frame to the wall. See Frame features, page i for the location of the mounting hole on the back of the frame.
Changing settings and more

Maintaining your frame

IMPORTANT: Always disconnect the power before cleaning. Do not use water, cleaning solutions, or other adhesives on the frame or any of its parts.

Gently wipe the frame and screen with a clean, dry, lint-free cloth. For fingerprints on the frame, apply light pressure.

</table>
| Frame does not turn on.                   | ■ Make sure the power cable that was included with your frame is connected securely (see page 2).  
                                         | ■ Unplug the power cable for 5 seconds, then reconnect the cable. Press and hold the **power** button (for about 2 seconds), then release. |
| Nothing happens when a memory card or USB device is connected. | ■ Insert a certified memory card, with images, into the card slot, then push to seat it (see page 6).  
                                         | ■ Make sure the USB device is connected securely (see page 7). |
| Frame freezes up or doesn’t work properly. | ■ Unplug the power cable for 5 seconds, then reconnect the cable. Press and hold the **power** button (for about 2 seconds), then release.  
                                         | ■ Reset the frame. On the back of the frame, press the **mode** and **power** buttons (see page i) at the same time. Highlight a reset option, then press **OK**.  
                                         | ■ **Just reset**—reset and save all pictures on the frame.  
                                         | ■ **Reset and delete all pictures**—reformat the internal memory and delete all pictures on the frame.  
                                         | ■ **Return to slide show without doing anything** |
| You set automatic on/off but the frame doesn’t turn on and off at the specified times. | If your frame loses power, the clock returns to the factory setting and auto on/off times are disabled. See **Re-setting your frame after losing power**, page 31. |
## Troubleshooting and support

### Screen messages

<thead>
<tr>
<th>Screen message</th>
<th>Try one or more of the following</th>
</tr>
</thead>
</table>
| File is bad. (usually preceded by the file name. For example: xxx_xxxx.JPG file is bad) | The frame cannot display the picture because the file is corrupted or it’s an unsupported file format (see page 32).  
NOTE: Videos are not supported. |
Re-setting your frame after losing power

If the frame loses power or you unplug it for more than a minute, the time and date setting is lost.

When the power is restored and the frame turns on, you are prompted to reset the time and date (see page 5).

Important safety instructions

**CAUTION:**
Do not disassemble this product; there are no user-serviceable parts inside. Refer servicing to qualified service personnel. Do not expose this product to liquid, moisture, or extreme temperatures. The use of controls, adjustments, or procedures other than those specified herein may result in exposure to shock and/or electrical or mechanical hazards. If the LCD breaks, do not touch the glass or liquid. Contact Kodak customer support.

- The use of an accessory that is not recommended by Kodak may cause fire, electric shock, or injury. For approved accessories, go to [www.kodak.com/go/accessories](http://www.kodak.com/go/accessories).
- Use only the AC adapter that was packaged with your frame. Use of other AC adapters may damage the frame and void your warranties.
- When displayed with the stand extended, the frame rests at a 75° angle.
- Do not place frame near open flame sources such as lighted candles or heaters.
Appendix

Additional care and maintenance

- Always disconnect the power before cleaning. Do not use water, cleaning solutions, or other adhesives on the frame or any of its parts. Gently wipe the frame and screen with a clean, dry, lint-free cloth. For fingerprints on the frame, apply light pressure.

- Service agreements are available in some countries. Contact a dealer of KODAK Products for more information.

- For digital frame disposal or recycling information, contact your local authorities. In the US, visit the Electronics Industry Alliance at www.eiae.org or visit www.kodak.com/go/digitalframesupport.

Limited warranty

Kodak warrants KODAK Consumer Electronic Products and Accessories (“Products”), excluding batteries, to be free from malfunctions and defects in both materials and workmanship for one year from the date of purchase. Retain the original dated sales receipt. Proof of the date of purchase will be required with any request for warranty repair.

Limited warranty coverage

Warranty service is only available from within the country where the Products were originally purchased. You may be required to ship Products, at your expense, to the authorized service facility for the country where the Products were purchased. Kodak will repair or replace Products if they fail to function properly during the warranty period, subject to any conditions and/or limitations stated herein. Warranty service will include all labor as well as any necessary adjustments and/or replacement parts. If Kodak is unable to repair or replace a Product, Kodak will, at its option, refund the purchase price paid for the Product provided the Product has been returned to Kodak along with proof of the purchase price paid. Repair, replacement, or refund of the purchase price are the sole remedies under the warranty. If replacement parts are used in making repairs, those parts may be remanufactured, or may contain remanufactured materials. If it is necessary to replace the entire Product, it may be
replaced with a remanufactured Product. Remanufactured Products, parts and materials are warranted for the remaining warranty term of the original Product, or 90 days after the date of repair or replacement, whichever is longer.

Limitations

This warranty does not cover circumstances beyond Kodak’s control. This warranty does not apply when failure is due to shipping damage, accident, alteration, modification, unauthorized service, misuse, abuse, use with incompatible accessories or attachments (such as third party ink or ink tanks), failure to follow Kodak’s operation, maintenance or repacking instructions, failure to use items supplied by Kodak (such as adapters and cables), or claims made after the duration of this warranty. Kodak makes no other express or implied warranty for this product, and disclaims the implied warranties of merchantability and fitness for a particular purpose. In the event that the exclusion of any implied warranty is ineffective under the law, the duration of the implied warranty will be one year from the purchase date or such longer period as required by law. The option of repair, replacement, or refund is Kodak’s only obligation. Kodak will not be responsible for any special, consequential or incidental damages resulting from the sale, purchase, or use of this product regardless of the cause or for breach of any written or implied warranty is expressly disclaimed.

Your rights

Some states or jurisdictions do not allow exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. Some states or jurisdictions do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. This warranty gives you specific rights, and you may have other rights which vary from state to state or by jurisdiction.
Appendix

Outside the United States and Canada

In countries other than the United States and Canada, the terms and conditions of this warranty may be different. Unless a specific Kodak warranty is communicated to the purchaser in writing by a Kodak company, no warranty or liability exists beyond any minimum requirements imposed by law, even though defect, damage, or loss may be by negligence or other act.

Regulatory compliance and advisory

FCC compliance and advisory

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed or used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: 1) reorient or relocate the receiving antenna; 2) increase the separation between the equipment and the receiver; 3) connect the equipment to an outlet on a circuit different from that to which the receiver is connected; 4) consult the dealer or an experienced radio/TV technician for additional suggestions. Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. Where shielded interface cables have been provided with the product or specified additional components or accessories elsewhere defined to be used with the installation of the product, they must be used in order to ensure compliance with FCC regulation.
Appendix

Canadian DOC statement
This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

CE
Hereby, Eastman Kodak Company declares that this KODAK Product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Waste Electrical and Electronic Equipment labeling
In Europe: For human/environmental protection, it is your responsibility to dispose of this equipment at a collection facility established for this purpose (separate from municipal waste). For more information, contact your retailer, collection facility, or appropriate local authorities; or visit www.kodak.com/go/recycle. (Product weight: 262 g.)
